

# Printable ring size

Three methods to size your ring

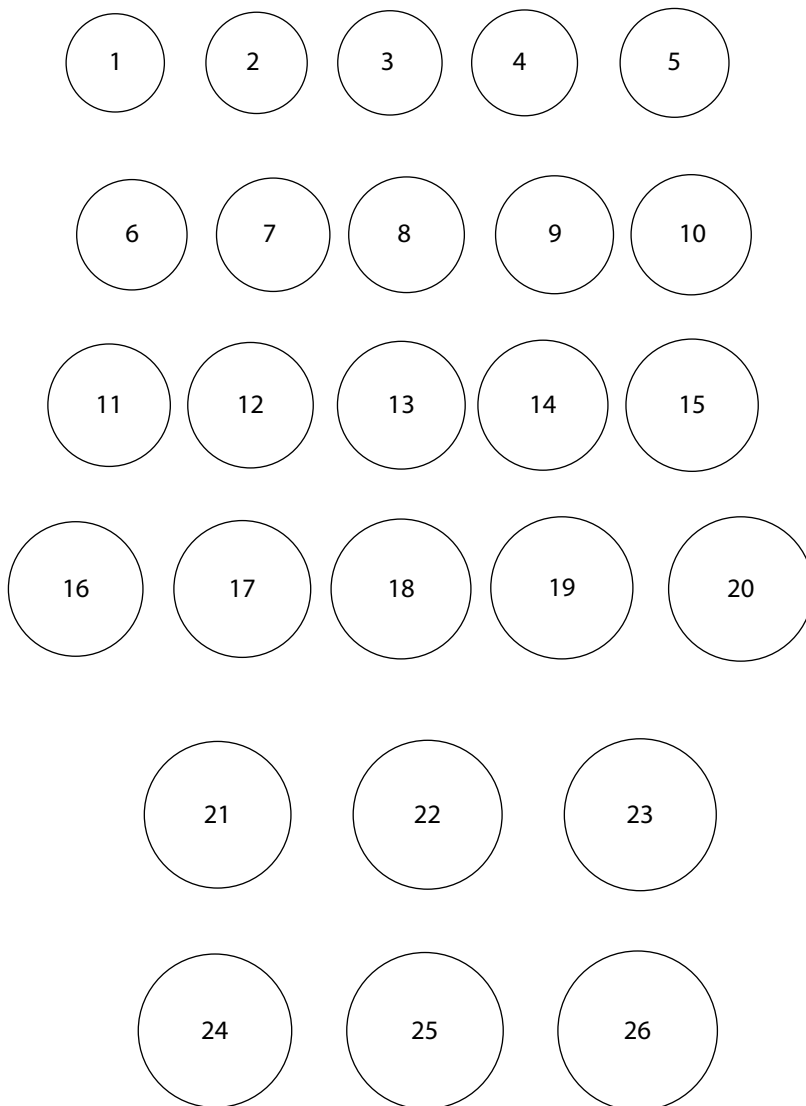

For accuracy, make sure the PDF is printed at 100%.

1

1. Print this page and cut out the ring size as shown above. Cut a small slit next to the arrow.
  2. Place the ring size around your finger and release the pointed end through the slit with numbers facing outwards.
- Tighten the ring size by pulling the pointed end towards your finger. The fit must be tight, but comfortable
4. Just read the number pointed to by the arrow next to "Read size here".

2

If you have an existing ring available, it is easy to adjust ring with one of the circles above. Simply place it existence with the inside of the ring fitting against matching circle.

3

1. Put a string around your finger.
2. Find the length of string that wraps around your finger exactly once.
3. Measure the length of the string against it nearest perimeter below.
